What has made Roblox unique in its field has been the interplay between its enormous constellation of experiences and its personalised avatar system. When you enter any given Roblox world, the user does not assume control of a context-relevant character (think Sonic, Mario, or Lara Croft) but as your persistent, user-created avatar. A virtual You, effectively – whoever you’ve chosen to be. Add to that an attendant in-game economy which has sprung up to support this expression of identity, with all sorts of user-generated clothing, hairstyles, accessories and skins available to purchase in the platform’s avatar shop. Roblox offers an opportunity, then, not just for play, but for digital-first designers and entrepreneurial retailers.

Much like any affiliate program, Roblox gives you incentive to get new players onto their platform. For every new person you help bring to Roblox, you get a percentage in Robux for every purchase they make. If you’ve developed a game on Roblox, you get Robux every time a player signs up for Roblox on your game’s landing page.

As the game continues to grow, the developers have a number of things planned for the game, including a display name change update and a voice chat feature.

The Apple vs Epic Games trial, which took place in May and whose verdict is expected later this year, could wind up being just the first of many similar clashes. The court battle started last year, when Apple removed Epic's Fortnite from its App Store after the developer had engineered a system to prevent Apple from taking a 30 per cent commission on Fortnite sales to iPhone users. Epic's defence was couched in the language of worry about how Apple's behaviour could affect and shape an emerging Metaverse.

I appreciate that reading this may make Roblox sound like a scary place for your kids to spend their digital time in but rest assured this is not the case. If you follow the steps above and educate your kids on how to stay safe and let you know when something isn't right, they will have a great time playing any of the games on the platform. My son has even got me playing with him and this can be a great way to fully understand what it is your kids are doing.

One of the most attractive aspects of Roblox is the way it lets players create and market their games on the platform.

Anyone. Everyone! Kids do, and you can, too. Roblox has free development tools to get started, and it offers extensive documentation and guides to help you learn how to make games for the platform. Unlike Minecraft, where you're literally building the environments around you using blocks, Roblox offers developers a more traditional suite of game development tools along the lines of Unity or Unreal Engine.

You could set up a private party in Roblox's dedicated space, which can almost feel like a virtual rave. In the span of an hour, you can hop through all kinds of different experiences because the app loads everything really quickly, which means it's pretty easy to replicate the chaotic energy of a real kids' birthday party.
